How School Boards Can Provide Equity by Advocating for Accomplished Teaching and National Board Certification
Welcome

Robyn Hoffman, Farmington Municipal School Board
Evelyn Sanchez, President, NMNBCT Network
Maureen Torrez, VP for Partnerships and Advocacy, NMNBCT Network
Patricia Gardner, Secretary/Treasurer, NMNBCT Network
The mission of the NM NBCT Network is to be the state leader for increasing the number of National Board Certified Teachers in New Mexico. We do this by promoting and educating teachers about National Boards, supporting them through the process by training and pairing up candidate support providers, offering opportunities to work on entries and review for the final assessment, and celebrating when achievement is attained. By offering opportunities to all members, we aim to be the leading voice in advocacy for support and recognition in all school districts in the state and at the state legislature.
Who is NBPTS?

Recognized as the gold standard in teacher certification, the National Board believes higher standards for teachers means better learning for students.

Established in 1987, the National Board for Professional Teaching Standards is an independent, nonprofit organization working to advance accomplished teaching for all students.

The founding mission of the National Board is to advance the quality of teaching and learning by:

- Maintaining high and rigorous standards for what accomplished teachers should know and be able to do;
- Providing a national voluntary system certifying teachers who meet these standards;
- Advocating related education reforms to integrate National Board Certification in American education and to capitalize on the expertise of National Board Certified Teachers.
Understanding Accomplished Teaching: the Body of Knowledge
What Is Accomplished Teaching?

3 Levels and Responsible Parties

- Understanding Accomplished Teaching (Teachers, School & District Leaders)
- Creating a Culture of Accomplished Teaching (School & District Leaders)
- Establishing Structures for Accomplished Teaching (District Leaders)

Source: Accomplished Teaching Guide for School Leaders, NBPTS.
The Certification Process

- The process for National Board Certification is comprised of 4 components:

  Component 1
  - Content Knowledge
  - This is the “Test”

  Component 2
  - Differentiation in Instruction
  - Individual students

  Component 3
  - Teaching Practice and Classroom Environment
  - Video

  Component 4
  - Effective and Reflective Practitioner
  - Your use of assessment and PD

$475 per component, $1950 total, plus the cost of support
Teacher Retention/Quality

Why Certify?

Improves student learning and achievement
Students of National Board Certified Teachers (NBCTs) outperform students of non-NBCTs on achievement tests and the positive effect is even greater minority students. Students of NBCTs make learning gains equivalent to an extra month in school. Students of NBCTs exhibit stronger writing abilities, better comprehension and integration of complex classroom material, better understanding of concepts, and more abstract thinking than students of non-NBCTs.

Improves Teaching
National Board Certification is a “transformative experience” for many teachers, and they often apply in the classroom what they learn from the certification process-whether they achieve certification or not. The certification process itself improves teachers’ ability to improve student learning.

Level 3 Licensure
National Board Certification advances teachers to a Level 3 certification in New Mexico without having to do the dossier.

NM National Board Stipend
The annual stipend approved by the New Mexico legislature has been around $6,000. This stipend is over and above the teacher’s salary and counts towards retirement.

Equity
Research--Teacher Quality/Retention

● Research shows that National Board certified teachers have a greater impact on student learning.
  ○ **Students of NM NBCTs show 15-18 months growth in 1 school year** (NM PED 2017)
  ○ “There is no other credential in our country that says more about what you as a teacher can do for students than National Board Certification.” Matt Montano, Deputy Superintendent of Education

● Research also shows that National Board Certified Teachers have a longer career than teachers who are not National Board certified.
  ○ **69.2% of National Board Certified Teachers are still teaching after 20 years.**
  ○ **Only 43.8% of non National Board Certified Teachers are still teaching after 11 years** (Goldharber and Hansen, 2009)
Equity

- # and distribution of NBCTs
- Engage expertise of NBCTs
- NBCTs reach students that need them the most
- Build culture of professional learning and growth through NB certification
- Strengthen teaching continuum statewide, focus on high needs students

Build a culture of professional learning and growth through Board certification

- The increased flexibility of permitting candidates three years to complete Board certification presents schools with the opportunity to build professional development around the National Board process. For example, Illinois is launching National Board Developing schools, a school-based candidate support model that guides groups of 10 or more interested teachers in a school or district through the National Board certification process. Over a three-year period these school-based cohorts will complete four National Board Certification components. Principles across the state have responded enthusiastically to this opportunity.

- Montgomery County, MD leveraged National Board Certification to improve teacher capacity as a strategy to address achievement gaps and promote college- and career-ready standards. In addition to financial incentives, the district embeds the National Board’s Five Core Propositions—the framework for what teachers should know and be able to do—into professional development, hiring, and evaluation. As a result, some 40 percent of the Board-certified teachers teach in the district’s 30 Title I schools. These efforts helped narrow the achievement gap in the district.

Strengthen the continuum for teaching quality statewide, with a focus on high-need students

- In addition to targeted interventions to address the equitable distribution of teaching quality, states can accelerate and focus their work on strengthening the teaching continuum, with an emphasis on those teaching high-need students. For example, in strengthening induction supports for new teachers, states can target resources and attention to high-need schools.

81% of Americans across the political spectrum believe teachers should achieve Board certification, beyond licensure, as it is in other professions (2014 PDK/Gallup poll)
Where are NM NBCTs?

NBCTs in only 41% of NM Public School Districts
NM Stats

New Mexico’s National Board-Certified Teachers

- Impact students positively
- Lead fellow educators
- Engage Family and Community

Your Support is Vital to Ensure Continuous Improvement in New Mexico

Where we are:

- 102 state teachers achieved National Board Certification in 2017. This number represents a 10% INCREASE. We now have 1152 National Board-Certified Teachers in New Mexico, teaching in 45 districts.
- New Mexico ranks 12th nationally in the percentage of NBCTs teaching in the state (5.30%) and 21st in the nation overall in 2017. We have more NBCTs in NM than does Texas, Colorado, Utah, Kansas, Nevada, or Wyoming.
- 1,152 NM teachers have achieved Board Certification 60% of NM NBCT’s teach in Title I schools. Continued support will ensure equitable access for all of New Mexico’s students, urban and rural.
- More than 100 Bureau of Indian Education teachers are currently engaged in the Board Certification process as part of a national effort to increase achievement for Native American students.
In Mississippi...

**NBCTs are Improving Student Achievement Across Mississippi.**

- Kindergarten Students taught by an NBCT are 31% more likely to achieve a proficient score on the Kindergarten Readiness Assessment than other students.

  ![Graph showing comparison between students taught by NBCT and those not taught by NBCT](image)

- Source: The Impact of National Board Certified Teachers on the Literacy Outcomes of Mississippi Kindergarteners and Third-Graders, NSPARC Mississippi State University, 2017.

- Third Grade Students taught by an NBCT are 11% more likely to achieve a proficient score on the MAP Test in English Language Arts than other students.

Around the Country...

- A 2017 study on NC found: “students taught by National Board certified teachers have higher math and reading scores by 0.04 and 0.01 of a standard deviation. We find that an NBPTS math teacher increases the present value of students’ lifetime income by $48,000.” And also concluded “The value of NBPTS teachers is substantial, and importantly offsets the certification wage premium. Policies that make use of NBPTS certification whether to identify or retain good teachers, are an economical way of raising the quality of instruction that may potentially provide large long-run economic and social benefits.” NEW EVIDENCE ON NATIONAL BOARD CERTIFICATION AS A SIGNAL OF TEACHER QUALITY - Horoi, Bhai

- In Washington state, a multi-year study found that “[Board-] certified teachers are more effective than non-certified teachers with similar experience.” Their findings suggest Board-certified teachers produce gains of up to 1.5 months of additional learning. (Goldhaber and Cowen, 2015).

- Another study in Chicago and Kentucky found that “Board certification is an effective signal of teacher quality [based on student test scores]. This finding held across locales, test types and subject areas. (CNA Corporation, 2015.)
The Architecture of Accomplished Teaching with Danielson’s Framework for Teaching Evaluation Domains:

Set new high and worthwhile goals that are appropriate for these students at this time
**Domain 1 - Planning and Preparation**

Evaluate student learning in light of the goals and the instruction
**Domain 1 - Planning and Preparation**
**Domain 3 - Instruction**

Set high, worthwhile goals appropriate for these students, at this time, in this setting
**Domain 1 - Planning and Preparation**

Reflect on student learning, the effectiveness of the instructional design, particular concerns, and issues
**Domain 4 - Professional Responsibilities**

Implement instruction designed to attain those goals
**Domain 2 - Classroom Environment**
**Domain 3 - Instruction**

Five Core Propositions:
- Teachers are committed to students and their learning - 1b
- Teachers know the subjects they teach and how to teach those subjects to students - 1a, 1b, 1c, 1d, 2a, 3a, 3b, 3c
- Teachers are responsible for managing and monitoring student learning - 1b, 1d, 1f, 2a, 2b, 2c, 2d, 3a, 3b, 3c, 3d, 3e, 4b
- Teachers think systematically about their practice and learn from experience - 3e, 4a, 4b, 4d, 4e, 4f
- Teachers are members of learning communities - 4a, 4c, 4d, 4e, 4f
Where NM Needs to Be in 2020

- Minimum of 10% of New Mexico teachers (~2200) NBCTs
- New teachers should be mentored by NBCTs and/or required Professional development on NBPTS standards and Core Propositions
- Geographic distribution of NBCTs to ensure equitable access to ALL NM’s children
- Support of the NBCT differential for teachers and administrators
- Indian Education funds for fee support and stipends for Board Certified teachers serving Native American students

How can you help us get there?
How You Can Help

- Advocate for continued support for the NBCT\textsuperscript{differential} and for additional resources to attract, develop and retain NBCTs in critical needs areas
- Encourage the engagement of NBCTs in education policy and decision making
- Support funds to provide NM teacher preparation with the NBPTS ATLAS video library
- Sponsor teachers seeking Board Certification by providing funds for fee support and professional development to help them meet the NBPTS standards
- Host an information session for teachers in your community
- Celebrate local teachers who achieve Board Certification in your publications and social media
- Continue partnership with NM NBCT Network
Title II funds can help put an accomplished teacher in every classroom in every district in NM.
