NMCEL
2019-2020
Strategic
Plan

- **Part I**
Adequate/Stable/Sufficient and delivered funding including a study to determine what is sufficient funding including programs and positions that are in concert with the Profile of a New Mexico Graduate which is supported through time with bipartisan support (reaching consensus).
- **Part II**
Improve and develop the recruitment/retention of all educators through licensure practice, reciprocity, educator pipeline, and retirement practices including ERB rules so that a fully developed ecosystem is created and enabled through time.
- **Part III**
Develop a focus and practice which creates “safe schools” environments for all students. This assures that terms such as “At-Risk” etc. are redefined and removes denigrating references and upholds the value of every student.
- **Part IV**
Create an Equity of opportunity for all students which combine college prep academics with technical/vocational workforce-development so all graduates are workforce ready.
- **Part V**
Provide a comprehensive definition of At-Risk and ensure funding is ear-marked and attached to students who meet the criteria and includes the social/emotional support of all students so that obstacles to learning are removed. (PED Priorities Aligned)
